EDUCATION

Bachelor of Science in Information Technology
Partido State University | Goa, Camarines Sur, Philippines | Aug 2022 - Jun 2026

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java
Frontend: React, Next.js, Tailwind CSS
Backend: Node.js, Express.js, NestJS, REST APIs, Spring Boot
Databases & ORM: PostgreSQL, MySQL, MongoDB, Astra DB, Prisma ORM, Spring Data JPA
AI integration: LangChain, Gemini, retrieval-augmented generation (RAG), semantic search
AI development tools: Codex, Claude, Antigravity, GitHub Copilot
Tools & deployment: Git, GitHub, GitHub Actions, Docker, Nginx, Microsoft Azure, Vercel, Render

EXPERIENCE

Full Stack Developer Intern | Local Government of San Jose
San Jose, Camarines Sur | Feb 2026 - May 2026

- Held a role as a Full Stack Developer Intern focusing on developing Landing Page and Admin Dashboard.
- Responsibilities included coding, testing, and debugging programs to ensure functionality and performance.
- Engaged in tasks that required collaboration with team members to enhance project outcomes.
- Learned about modern development practices and contributed to ongoing projects.

PROJECTS

WISE: Web-Based Learning Platform for Institutional Course Delivery, Teaching Management, and Educational Support | Capstone project
JavaScript, React, Tailwind CSS, Node.js, Express.js, PostgreSQL, Prisma ORM, Render

- Led full stack development of an institutional learning platform with student, faculty, and administrator dashboards.
- Built course publishing and ordered modules with videos, PDFs, files, and links for self-paced learning.
- Created quizzes with automated scoring and attempt limits, learner progress tracking, and faculty analytics.
- Implemented course discussion forums and completion certificates with public verification.

VeryFact | AI fact-checking platform | Personal project
Java, Spring Boot, React, TypeScript, PostgreSQL, Spring Data JPA, Gemini, Docker

- Built a Spring Boot and React fact checker for text, article URLs, and up to four uploaded images.
- Combined Gemini with live Google results via SerpApi and validated citations against retrieved sources.
- Added asynchronous processing, shareable claim-level reports, and one-hour caching of eligible results.

Letterly | Personal project
TypeScript, Next.js, React, NestJS, PostgreSQL, Prisma ORM, Tailwind CSS

- Built personalized letter pages with templates, media, and interactive questions.
- Implemented a creator dashboard for draft editing, previews, publishing, and unpublishing.
- Added password-protected pages, public sharing links, and downloadable QR codes.

College Rage | Personal project
TypeScript, React, Node.js, Express.js, PostgreSQL, Prisma ORM, Docker, Nginx, Azure

- Built a music-mapped gallery with an admin dashboard, Dropbox file management, and visitor analytics.
- Developed a responsive 3D gallery for hundreds of images with progressive loading and automatic recovery.
- Containerized the application with Docker and Nginx and deployed it to Microsoft Azure.

Mc.AI | Personal project
TypeScript, React, NestJS, Node.js, Astra DB, LangChain, Gemini, Docker, Vercel, Azure

- Built a RAG application that turns PDF, DOCX, and TXT files into searchable knowledge bases.
- Implemented semantic search using Gemini embeddings and Astra DB vector storage.
- Added real-time AI response streaming for document queries.

HONORS & AWARDS

- **Dean's List (2024-2025):** Two-time recipient, Partido State University.
- **Gamefest 2025 - 1st Place:** Game development event, Partido State University.
